MEETING THE INTERNATIONAL CHALLENGES OF THE FUTURE

“2012 UHY CAPABILITY STATEMENT”

UHY Gubba & Asociados introduces the latest [‘2012 UHY Capability Statement’](#). This edition showcases the breadth and depth of its member firms’ services and capabilities of the UHY international accountancy network through client case studies. This edition includes a number of case studies covering a range of international clients across a variety of market sectors such as **precision metalworking, lift and elevator manufacturing, contract research and not-for-profit.**

“As always, our clients inspire us the most. Many are exploring international opportunities with us. They do so in the secure knowledge that, in every major global business centre, UHY has a team of professionals on the ground with local contacts and local intelligence which they are ready to share.” Says Hugo Gubba

The *‘2012 UHY Capability Statement’* offers an insight into the great variety of work undertaken by UHY member firms and how they continue to work together internationally throughout sectors, specialisms and geographical regions. It demonstrates the close relationships member firms foster with clients by offering innovative and practical solutions. Partners and specialist service teams go the extra mile to help clients achieve their business goals, realise specific opportunities and effectively manage risks by sharing our knowledge of local regulations, market practice and cultural norms across the globe.

Hugo Gubba added: “As we reminisce over the last 25 years and meet the challenges of the future, I am heartened that all those ‘old-school’ business values still remain intact wherever you are based: prompt and courteous responses; willingness to ‘go the extra mile’ in providing pertinent and practical consultancy; and preparedness to become part of our clients’ organisations, working with them, on the inside, getting to know them.”
